

CHIDERA NWANKWO

FULL STACK DEVELOPER

SUMMARY

Full Stack Developer with 4+ years of experience building web and mobile applications. Skilled in React, Node.js, Laravel, and React Native. Experienced in API integration, database management, and full project deployment. Passionate about AI problem-solving and software architecture. Looking for a role where I can build impactful digital solutions.

EXPERIENCE

Full Stack Developer Instructor

DCH Academy Karu, Abuja | 2025 – 2026

- Trained 50+ students in Full Stack Development (React, PHP, MySQL)
- Designed curriculum covering frontend, backend, and deployment
- Mentored students in building real-world portfolio projects

Freelance Full Stack Developer

Self-employed | 2019 – Present

- Develop and deploy web/mobile apps using MERN and LAMP stacks
- Build scalable backends with Node.js and Laravel
- Integrate RESTful/GraphQL APIs and handle authentication
- Deliver custom WordPress solutions and maintain GitHub workflows

PROJECTS

AI-Based ChatBot

- Built backend microservice with Python, Flask, and OpenAI API
- Deployed for real-time interactive chat

CRM Platform

- Full stack with TypeScript and PostgreSQL
- JWT authentication, role-based access, and live deployment

HRM System

- Employee management, attendance, and payroll modules
- Responsive UI and backend reporting logic

Personal Finance Management API

- Built a comprehensive financial management API with Node.js and Express
- Features:** user authentication, balance tracking, budget management, and transaction handling
- Integrated email notifications and real-time updates
- Full API documentation with error handling and rate limiting
